## SPECIALS OUT FOR THE PROFITS

Rise in Stock Prices on Tuesday Followed by a Selling Movement.

### SOME POLITICAL TALK

Recent Occurrences, However, Have No Appreciable Effect in Wall Street.

New York, Sept. 14.—The stock market today had to bear the burden of profit-sharing on the rise of yesterday and was affected accordingly. So considerable a movement after the prolonged period of apathy and listlessness was not to be neglected by the long-suffering professional operators. Politics continued to occupy a large share of attention, but there was a disposition among some of the larger financial powers to defeat the exploitation of the stock market as a field for the expression of opinions on political prospects.

The subsidence of anxiety over the banking position, the country, provided a substantial substratum for the confidence that is growing up. This was manifest in the reception of the London conference of foreign bankers of the validation plan for American cotton shipments.

Source of the domestic money market seem now assured that the extra requirement thus implied causes no anxiety. Money is plentiful and rates both in New York and international exchanges. New York and Chicago report a renewal of engagements from the insurance companies with interest rates marked down from 6 to 5 1/2 per cent.

Bonds were firm. Total sales, par value, \$2,264,000. United States 2s declined 1/8 per cent on call.
